SUPPLEMENTARY INFORMATION:**A. Purpose**

The Federal Acquisition Streamlining Act of 1994, Pub. L. 103-355, provided authorities that streamlined the acquisition process and minimize burdensome government-unique requirements. Sections 2001 and 2051 of the Federal Acquisition Streamlining Act of 1994 substantially changed the statutory authorities for Government financing of contracts. Sections 2001(f) and 2051(e) provide specific authority for Government financing of purchases of commercial items, and sections 2001(b) and 2051(b) substantially revised the authority for Government

financing of purchases of non-commercial items.

Sections 2001(f) and 2051(e) provide specific authority for Government financing of purchases of commercial items. These paragraphs authorize the Government to provide contract financing with certain limitations.

Sections 2001(b) and 2051(b) also amended the authority for Government financing of non-commercial purchases by authorizing financing on the basis of certain classes of measures of performance.

To implement these changes, DOD, NASA, and GSA amended the Federal Acquisition Regulation by revising Subparts 32.0, 32.1, and 32.5; by adding new Subparts 32.2 and 32.10; and by adding new clauses to 52.232.

The coverage enables the Government to provide financing to assist in the performance of contracts for commercial items and provide financing for non-commercial items based on contractor performance.

B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average 2 hours per request for commercial financing and 2 hours per request for performance-based financing, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden for Commercial Financing is estimated as follows: Respondents, 1,000; responses per respondent, 5; total annual responses, 5,000; preparation hours per response, 2; and total response burden hours, 10,000.

The annual reporting burden for Performance-Based Financing is estimated as follows: Respondents, 500; responses per respondent, 12; total annual responses, 6,000; preparation hours per response, 2; and total response burden hours, 12,000.
